Versakut 6935 pH UP

pH up adjustment for water blended coolant

INCREASING PROFITABILITY THROUGH SOLUTIONS-DRIVEN CHEMICAL TECHNOLOGY

Description:

Versakut 6935 pH UP is a specially formulated blend of advanced pH organic amines, designed to be fully compatible with most water-based coolant mixtures.

Applications:

Versakut 6935 pH UP is specially formulated to add to coolant that has lost the correct pH level due to sitting idle, from hydraulic fluid, or incoming water issues. In general, 1 quart to a 50 gallon sump would be the normal addition. Contamination of various sorts may require larger amounts to obtain a pH 9.0 - 10.0 for normal operations.

PRODUCT PROPERTIES

Appearance	Water White to Yellow Liquid
pH of Concentrate	11.5 +/- .5
Odor	Mint
Foaming	Very Low
Specific Gravity	1.01

PACKAGING CONFIGURATIONS

- 5 Gallon Pails
- 55 Gallon Drums
- 275 Gallon Totes

STORAGE & HANDLING

- Packaged in Polyethylene Containers
- Store Inside at Room Temperature in Original Container
- Standard Chemical Handling Practices
- Shelf Life of ~2 Years in Sealed Containers

See SDS for complete safety recommendations.
