Vibra Brite 7010

Mild Acid Cleaning / Brightening Compound

INCREASING PROFITABILITY THROUGH SOLUTIONS-DRIVEN CHEMICAL TECHNOLOGY

Description:

Vibra Brite 7010 is a mild acid cleaning and brightening compound formulated for use in vibratory and other mass finishing equipment. At recommended concentrations of 0.5% to 1.5%, this cost-effective solution efficiently removes heat treat scale and residual quench oils from metal surfaces. Its formulation is particularly effective on heavily oiled parts, delivering a clean, bright finish without the use of glycol ethers. Vibra Brite 7010 is ideal for manufacturers seeking a safe, economical, and high-performing solution for post-heat-treatment cleaning processes.

Applications:

Vibra Brite 7010 can be used in wet vibratory flow through systems with ceramic media. RMA is achieved by proper selection of media and lubricity provided by Vibra Brite 7010.

After removal of soils and scale, the parts can be finished with Metal Medic 7973, Metal Medic 9001, or Metal Medic 7915 for rust protection and degree of polish needed.

PRODUCT PROPERTIES

Physical Form	Clear Liquid
Odor	Mild
Specific Gravity	1.035
Bulk Density	8.6 lbs / gal
pH 5%	2 - 3
Flash Point	Mone
Foaming	Low
Hard Water Stability	Up to 400 ppm

PACKAGING CONFIGURATIONS

- 5 Gallon Pails
- 55 Gallon Drums
- 275 Gallon Totes

STORAGE & HANDLING

- Packaged in Polyethylene Containers
- Store Inside at Room Temperature in Original Container
- Standard Chemical Handling Practices
- Shelf Life of ~2 Years in Sealed Containers

See SDS for complete safety recommendations.
