Metal Medic 7208 Drawing Lubricant and Cleaner

INCREASING PROFITABILITY THROUGH SOLUTIONS-DRIVEN CHEMICAL TECHNOLOGY

Description:

Metal Medic 7208 is a high-performance drawing and stamping lubricant designed for applications that require greater lubricity than what is provided by Metal Medic 7202. Formulated to provide superior friction reduction, Metal Medic 7208 enhances tool life and improves surface finish during heavy-duty forming and stamping operations. Additionally, Metal Medic 7208 can be used effectively as a cleaner for zinc phosphate-coated wire prior to chopping, ensuring optimal surface preparation and performance during subsequent processes.

Applications:

Metal Medic 7208 is applied to zinc coated wire prior to chopping and after straightener. It provides consistent drawing pressure and cleans wire. Metal Medic 7208 gives excellent lubrication without length variation when it is used as is.

PRODUCT PROPERTIES

Appearance	Clear Liquid
Specific Gravity	0.77 - 0.80
Solubility in Water	None

PACKAGING CONFIGURATIONS

- 5 Gallon Pails
- 55 Gallon Drums
- 275 Gallon Totes

STORAGE & HANDLING

- Packaged in Polyethylene Containers
- Store Inside at Room Temperature in Original Container
- Standard Chemical Handling Practices
- Shelf Life of ~2 Years in Sealed Containers

See SDS for complete safety recommendations.
