Rust Inhibitor

INCREASING PROFITABILITY THROUGH SOLUTIONS-DRIVEN CHEMICAL TECHNOLOGY

Description:

Metal Medic 2010 is a quick-drying, light oil-based rust inhibitor designed to provide effective short- to medium-term corrosion protection for metal surfaces. Its fast-evaporating formulation leaves behind a thin, uniform film that resists moisture and oxidation without leaving a heavy or greasy residue. Ideal for use in manufacturing, storage, or transport, Metal Medic 2010 offers clean, reliable protection with minimal impact on downstream processing.

Applications:

Metal Medic 2010 is a light film water displacing rust preventative. It is used as is and leaves a light film rust preventative on finished parts.
