Metal Medic 7315

Water Displacing Rust Inhibitor

INCREASING PROFITABILITY THROUGH SOLUTIONS-DRIVEN CHEMICAL TECHNOLOGY

Description:

Metal Medic 7315 is a non-emulsifiable, water-displacing rust preventative formulated with a fingerprint neutralizer. It effectively removes water and coolants from metal surfaces after machining, with displaced fluids collecting at the bottom of the tank for easy removal. Resistant to caustic solutions, Metal Medic 7315 also eliminates caustic residues from metal surfaces while leaving behind a thin, non-staining, protective film. This film provides reliable corrosion protection without interfering with further processing, making the product ideal for use in a wide range of metalworking applications.

Applications:

Use as received.

Metal Medic 7315 may also be applied effectively by spray application if coverage is complete.

PRODUCT PROPERTIES

Form	Liquid
Appearance	Brown Liquid
Odor	Solvent
pH	N/A
Foaming	None
Specific Gravity	0.795 - 0.822

PACKAGING CONFIGURATIONS

- 5 Gallon Pails
- 55 Gallon Drums
- 275 Gallon Totes

STORAGE & HANDLING

- Packaged in Polyethylene Containers
- Store Inside at Room Temperature in Original Container
- Standard Chemical Handling Practices
- Shelf Life of ~2 Years in Sealed Containers

See SDS for complete safety recommendations.
