Metal Medic 7573 Neutral Rust Remover

INCREASING PROFITABILITY THROUGH SOLUTIONS-DRIVEN CHEMICAL TECHNOLOGY

Description:

Metal Medic 7573 is a neutral rust remover designed to effectively remove scale and oxide, making it ideal for product recovery or post-thermal de-burring. With low toxicity, it offers a safer alternative to harmful acids and caustic solutions commonly used in rust removal and part recovery processes. Metal Medic 7573 works by attacking the rust and oxidation first while slowly and gently acting on the base metal, allowing parts that may not be recoverable through acid or alkaline stripping to be effectively restored. This makes it an invaluable solution for delicate recovery applications.

Applications:

Metal Medic 7573 should be used in stainless steel or plastic equipment at 5 to 10% concentrations.

Metal Medic 7573 does not lend itself to titration when it quits working the product should be discharged to waste treatment and a new tank made up.

Most applications are aided by heating to 140 F. Dip, spray, or brush applied full strength.

PRODUCT PROPERTIES

Appearance	Clear Liquid
Specific Gravity	1.040 - 1.060
pH 5% Solution	6.5 - 7.3
pH Concentrate	6.0 - 7.0

PACKAGING CONFIGURATIONS

- 5 Gallon Pails
- 55 Gallon Drums
- 275 Gallon Totes

STORAGE & HANDLING

- Packaged in Polyethylene Containers
- Store Inside at Room Temperature in Original Container
- Standard Chemical Handling Practices
- Shelf Life of ~2 Years in Sealed Containers

See SDS for complete safety recommendations.
